Ottumwa, Iowa, April 10, 1901.

F. C. NORFOLK, 10:7 Hackberry Street.

In 1883 I broke out with Eczema on my head, legs and arms. The Doctors treated me for about two years without giving relief. I next

tried various elutments, soaps and washes, but these did me no good.

I finally quit taking medicine, as the physician said the disease had

become chronic and incurable. Having endured this termenting mainly

for about 16 years, I determined to make another affort to get rid of it and began S. S. S. in July, 1900, and continued it until November, when

I discovered, to my surprise and joy, that not a spot could be found us my body, which before had been almost covered with the eruption.

a sign of it has ever returned, and I am satisfied the cure is permanent,

It has now been nearly a year since the disease disappeared, but not

Where Is Your Court House, of People of Kentland, Ind.

ONLY A NOD EASTWARD

History of the Seat of Justice Is Full of Interest.

Every time a stranger drops from a then sparsely populated, but the same passenger train on the one railroad run- tighting blood that is evident today prening through Kentland, Ind., and ambles vailed at that time. northward up the main business street of ? to sarcaam of the most vitriolic sort is about lifty inhabitants and called "Where's your court house?"

In a remote corner of this prelific grove stands a small two-story frame belifting. Viewed from the front, it looks for all the world like a district school house. It is surmounted by a rickety, squatty tower in which hangs a rusty old bell that has grown hourse and unnecledous from long usage. The weather boarding shows the effects of simust haif a century of Indiana what and weather, it is warped and cracked and marred by deep scars which numerous cours of paint have failed to heal. The roof, too revenis its age. Occasionally spots are visible showing the flight of cedar shingles before blasts that have been howling across its gables for more than four decades. The unimposing structure does not rise more than thirty feer above the ground and is completely overshadowed by the thrifty

ty. Admittedly, it is the worst court house it would not bring to exceed gate, and yet, during its eventful existence, the building has cost much more than many of the modern brick and stone structures that have been erected at county seat towns in various parts of the state. It is, at the same time, the poorest and one of the most expensive court houses in Indiana, and this paradorical situation is bitterness for more than forty years.

On June 7 the fight is to be taken up anew. Another town will on that day attempt to wrest the county seat from the grasp of Kentland by popular election. Every town in the county has been experimenting with this problem in one way or another since the present court vations in Babylonia to the Chicago house was built in the spring of 1801, yet | Times-Record, says: the unsightly old ladding has clung to Those who have followed the former

the county sent question as the foremost known even in the household of Mines. the county sent question as the foremost and most burning local issue. The result of all this strife has been interior feeling and accust jealousy which two or three times every year takes a new turn and locate in the household of Mines.

Talks Interestingly of Conditions at St. Vincent.

WOULD HAVE IT STUDIED

Pelee Will Smoke For Several Months Yet.

New York, June 7.-Captain Barry of the cruiser Dixle, just returned from bearing supplies to the volcano victims in the West Indies, said regarding conditions in the island:

"Conditions are not as bad on Martinique as on St. Vincent, because there is no danger in future eruptions. Only a small area of twelve square miles has been devastated, but on St. Vincent the destruction extends over a third of the island. Plantations, orchards and everything have been ruined and the means of subsistence have been taken away from the people and thousands have been left in need of some kind of support.

Of the scientific results of the Dixie's expedition Prof. I. C. Russell of the University of Michigan said: "The over-heated rock, bursting against

The skin is provided with millions of little pores and glands invisible to the natural eye, yet through these tiny outlets the larger part of the deadly matter that daily collects in the body is carried off. But nature never intended that poisons of an irritating or acid character should be eliminated through the skin, the Liver and Kidneys being their natural

outlets, and it is when these important organs fail to perform their functions that these acid poisons are absorbed into the blood and find their way to the surface of the body through the pores and glands of the skin, producing intense itching and burning, inflammation and swelling, and eruptions of every conceivable size, shape and character.

Skin Diseases differ greatly in their general characteristics and degrees of intensity, Red and angry looking spots break out upon some part of the body with a mass of small pustules or blisters, from which is discharged a clear or straw colored fluid, which dries and flakes off in bran-like particles and scales, or forms into hard and painful sores and scabs. The skin often hardens and dries, cracks and bleeds from the effects of the fiery acids,

which the blood is continually throwing off. Pimples, blackheads and blotches are evidences of a too acid blood, which has inflamed and clogged the pores.

Skin Diseases being dependent upon the same causes require the same treatment, which must be constitutional and not external. Nothing applied locally to the inflamed surface can bring much relief. The disfiguring eruptions will continue to annoy and pain

you in spite of soaps, washes or powders. There's no hope of getting rid of a skin disease except through the purification of the depreciated blood and neutralizing and filtering out of the circulation all poisonous substances and acids.

The purifying and tonic properties of S. S. S. soon manifest their influence in skin affections; the debilitated system is invigorated and toned up, and the gradual disappearance of the cruptions show that the polluted blood is being brought back to its natural purity and strength. Old chronic skin disorders, which have resisted all the ordinary methods of

treatment, readily yield to the curative SALT RHEUM, ECZEMA, powers of S. S. S., and there is no reason why the long time sufferer should feel resigned to his fate under the mistaken TETTER, NETTLE RASH, idea that some skin diseases are incurable, for S. S. S. has cured and is still PSORIASIS, ACNE, BOILS. curing cases perhaps far more desperate than yours. S. S. S. is a purely vegetable remedy, containing no Potash, Arsenie

or any of the poisonous drugs which constitute the basis of so many so-called skin cures. Our Medical Department has been of the greatest assistance to thousands seeking relief from blood and skin troubles. Write us fully about your case, and our physicians will help you, for which no charge whatever is made. Our illustrated Book on Skin Diseases will be THE SWIFT SPECIFIC COMPANY, ATLANTA, GA. sent free to all who write for it.
